

Searching for a Telehealth Solution for Your Practice?

With dozens of vendors to choose from, selecting a telehealth solution can be an overwhelming task. Many of our providers have asked for our assistance in identifying an approved platform.

We're pleased to announce a partnership with AllHealth CHOICE, a leader in telehealth.

Utilizing telehealth, you can transform your practice into a 24/7 virtual care office without adding staff or equipment. In addition, you can video call patients on a HIPAA-compliant platform, while avoiding sick or at-risk patients visiting your office.

MyCharlie from AllHealth CHOICE is available today...

MyCharlie 
An AllHealth CHOICE Solution

Quick Set Up: Onboarding takes less than 24 hours.

Multi-Communication Channels: Use screen shares with patients/family members/specialty physicians and online chats during the virtual consultation.

Revenue Generation: Most telehealth visits are reimbursed like an in-office visit.

Easy to Use Dashboard: Patients access the platform via an app for both Android and iOS. Providers access their dashboard to add people to a virtual consult; screen share, chat, broadcast messages and use other functions.
